

Kenetic Capital Insight

Kenetic Capital is a Proprietary Trading firm focusing on Cryptocurrency and digital assets, headquartered in Hong Kong. The firm trades a variety of high and medium frequency Delta 1 and convex strategies across the entire Cryptocurrency landscape, using proprietary, custom-built trading technology and low latency execution systems.

It's the leading blockchain investment firm and one of the largest institutional owners of cryptocurrencies and other investment platforms. Kenetic Capital was founded in 2016 by a group of expert exchange market traders. After long consultations and analytical investigations on brokerage service market, it was decided to create a company, which could fill unsatisfied demand in the area of trust asset management.

Clients who have entrusted us with managing their funds get an opportunity to minimize their risks (regardless of the chosen investment strategy), and this represents one of the primary targets when working on the lucrative but risky crypto market. We are focused on investing in blockchain technologies and other major assets; the Kenetic Capital team is experienced in both traditional finance and emergent blockchain technology and other services. Having strong relationships with some of the most promising entrepreneurs and other top investors in the space, Kenetic Capital is fulfilling its strategic investment philosophy by building a diversified portfolio and bringing industry-specific value-add resources to its portfolio companies. Within the next several years, we envision blockchains and digital currencies having an established, responsibly managed, and regulated role in the global economy. Our company has experience of more than 25 years in the field of trading and constantly improves its trading strategies daily conducting their audit and necessary adjustments. Some of our strategies have been described and implemented in our automated trading developments, Kenetic Capital investment in Blockchain Technology companies - Strong track record with robust and proven risk management - Vast network of opinion leaders, projects and founders for deal sourcing - 6 years experience investing in the digital asset space - Investing in equity of Series A / B blockchain technology companies - Asia focused, investing globally.

Modern solution for business growth

WHO WE ARE

And What We Do

Trust management is gaining more and more popularity, as people strive to ensure that their money works for them. Residual or passive income, previously available only to the elite and usually achieved by very difficult work, is now available to ordinary citizens. After the trading appeared, a huge number of companies have emerged that provide the opportunity for trust management, that is, increasing the capital of individuals.
